INFORMATION CONCERNING YOUR MRI(rev 12102008)

Your provider has referred you for a MRI to further diagnose your condition. To help you better understand the process, to follow is some information for your review. On the reverse side, you will find a list of area radiology offices who perform MRI scans.

- MRI exams must be scheduled at a Radiology/MRI facility
- Your insurance company may only contract with select radiology vendors.
- Certain insurance companies require that we obtain pre-authorization for your MRI . The major carriers requiring pre-authorization are: Aetna, Blue Cross/Blue Shield out of state plans, Carefirst BC/BS (excluding Federal BS and Blue Choice), Anthem BC/BS, Cigna, Coventry, GEHA, Great West, M.D.I.P.A., One Health, Optimum Choice, Tricare Prime, Unicare, United Healthcare and Workers Compensation. **Plans not requiring pre-authorization include Medicare, Johns Hopkins EHP, NCPPO, Tricare Standard and Tricare for Life.** Pre-authorization is handled by the AAOS referral specialist.
- If your insurance plan requires pre-authorization, the MRI vendor will not schedule the appointment until your insurance company has pre-authorized the service.
- It can take from 5 – 7 days for your insurance company to pre-authorize the MRI. We will call you with the authorization number once your MRI has been pre-authorized by your insurance carrier so that you can then schedule your MRI scan.
- Preauthorization from your insurance company is obtained for a specific radiology vendor. You need to inform our office if you want to change the company who will be performing the MRI so that we can contact your insurance company.
- The radiology facility will not **forward the MRI films to our office**. When you arrive at the MRI location for your MRI, please inform the staff that you need to take a copy of the films with you. After your MRI has been performed, please ...
 - Drop off your MRI films at the office so that they can be viewed by your provider prior to your next visit. You will receive a call from our office once the films have been viewed with information concerning their results.**
 - Bring the films with you to your next visit. Please contact the office to schedule an appointment after your test has been performed so that your provider can review your films with you**
- Please call us with any questions.
